

EDUCATION CONTENT

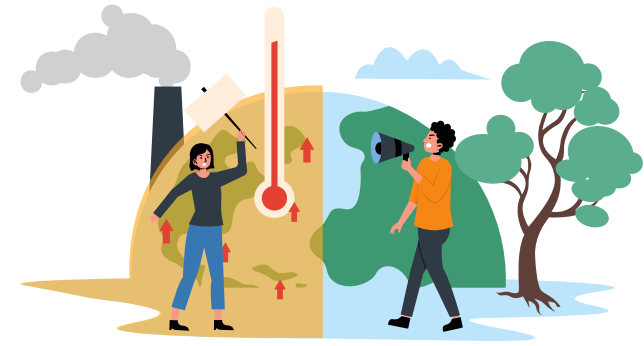

Climbing temperatures, extreme weather, and rising sea levels are just a few consequences of climate change. These changes can lead to more frequent and severe natural disasters, harm ecosystems, and impact food and water resources.

Within the scope of "Adapt to the New Climate: Youth Empowerment" project, we will learn by doing and experiencing together with non-formal education techniques for 5 days in the "Climate Change Adaptation Awareness and Knowledge Camp" program.

WHAT WILL WE LEARN?

Climate change awareness and capacity-building training involves understanding the impact of human actions on the planet's climate, the resulting environmental changes, and the need for action.

“ THE EARTH IS OUR HOME, LET'S PROTECT IT FOR FUTURE GENERATIONS ”

ADAPT NEW CLIMATE:
YOUTH EMPOWERMENT PROJECT

LEARNING TRAINING TEACHING

ACTIVITIES - 1

Let's do something for
our Earth, like:

EDUCATION CONTENT

- Fundamentals of Climate Change
- Climate Change and Environmental Impacts
- Climate Action and Sustainable Living
- Tackling Climate Change at Local and Global Scale
- Climate Change Policies and Governance
- Adaptation to Climate Change through Technology and Innovation
- Looking to the Future: The Role and Actions of Young People

A SUSTAINABLE FUTURE.

LET US PRESERVE THE
ENVIRONMENT FOR THE
WELL-BEING OF FUTURE
GENERATIONS AND THE
SUSTAINABILITY OF OUR
WORLD.

BE THE CHANGE

Let us be among those who
care for our environment and
our planet.

9 - 13 FEBRUARY
ANKARA - ALTINEL HOTEL &
CONVENTION CENTER
